

All write-ins have been moved to appropriate families (new entries have no line numbers).

Changed line 547 from Peruvian Warbling-Antbird to Yellow-breasted Warbling-Antbird.

Added the Gray-breasted Martin sighting on Sep 6. **Did anyone see anything else that should be added to the 6th?**

I compared my electronic list to Cindy's handwritten list. Anything I added is updated in green. Anything I updated by mistake has been removed and shows red.

The right-most column reflects sub-species seen for Red-eyed Vireo (Chivi sub-species) and Blue-gray Tanager (Amazon sub-species).

**Let me know of any additions, changes or deletions that you find. I will send an updated list after I hear back from everyone regarding any required corrections.**
